Dear Keith,

The Mystic Harbor Management Commission wishes to express their sincere appreciation for the contribution you made to laying out the mooring grid for the turning basin. If it hadn't been for your advice and the work by Bill Cotter, we would not have been able to have all the moorings in place by the date needed. We also want to recognize and thank Bill for responding so quickly and professionally as our requirements kept changing.

Sincerely yours,

David Carreau
Chairman, Mystic Harbor Management Commission
